SOFTWARE ENGINEER
MERN STACK DEVELOPER

[linkedin.com/in/EngIrIrfanYousafzai](https://www.linkedin.com/in/EngIrIrfanYousafzai)

I am a dedicated and highly skilled Software Engineer with a strong background in full-stack web development, specializing in the MERN (MongoDB, Express.js, React.js, Node.js) stack. My passion for technology and problem-solving drives me to create responsive, user-friendly, and efficient web applications. With a comprehensive understanding of both front-end and back-end development, I excel at delivering robust solutions that meet client needs and industry standards.

WORK EXPERIENCE

FRONTEND INTERNSHIP

InternnCraft Remote

April 2024 - July 2024

- Successfully completed a 3-month remote internship at InternnCraft.
- Developed four diverse projects: restaurant app, e-commerce platform, tour and travel app, and fitness gym app.
- Gained valuable skills and knowledge in software development and MERN stack.

FYP Project Mobile App

Indus University

Aug 2023 - July 2024

Developed the **RENTMENT** mobile app for Multiple rentals products, focusing on user-friendly interfaces for landlords and tenants. Utilized React Native, Node.js, MongoDB, and Firebase to create features such as secure authentication, products listings, advanced search, booking, in-app messaging. Ensured data privacy, security, and app responsiveness. Successfully launched a beta version, demonstrating potential for commercial scalability and positive user engagement.
